PLEASE CROSS POST TO BIRD LISTS

Good news. Our legislative contacts in Missouri who routinely work on proposed bills have indicated that this bill, HB 1847, is DEAD. If at some point, the bill is miraculously revived, we will be informed immediately. However, this is not expected. Therefore, no action is recommended since it is not necessary.

Right now we do NOT want to flood the Missouri legislators with emails, faxes or phone calls. This activity will only irritate legislators who are not interested in seeing the bill move forward.

Please, take no action on this bill UNLESS and UNTIL you hear from the legislative leadership of AFA (Genny Wall) or myself, representing ASA. Legislation is our job and we will keep you apprised of the situation if there is a change.

The bill will remain on the website, but that does not mean it is alive and well.

So, folks, we will be focusing on other bills that surface in other states.

I expect that we will be hearing of new bills of concern on a routine basis.

Laurella Desborough, ASA Legislative Chair
